TIPS ON GUARDIANSHIP PREVENTION

In order to avoid the difficult and costly guardianship process, here are some steps to consider, while the individual is *still able to understand and execute a legal document*:

- Ask the individual to talk with loved ones about the care that he or she would like to receive in the event of serious illness.
- Arrange for the individual to execute a Financial Power of Attorney document, which gives permission for an agent (a trusted family member, friend or advisor) to make financial decisions for the individual. If this document is a "springing" Power of Attorney, which goes into effect only when the individual is declared disabled, the document should clearly state how the determination of disability will be made.
- Advise the person to make a medical Advance Directive. This document may specify the type of care the person wants, and/or it may name another individual to give informed consent for medical treatment.
- Learn about Surrogate Decision Making in Maryland, which authorizes a proxy to act on behalf of the person in need of medical care and decision-making, if he or she has not appointed a health care agent in an Advance Directive.
- If the individual's capacity to understand and execute a legal document is questionable, then have their regular doctor document capacity prior to the document's execution.
- *Mediation* is an available alternative to work out any family discord about care arrangements that may be affective. Mediation can be used with adults who are competent to make decisions or in cases where family decision-making needs to be done on behalf of an incapacitated elder; if successful, it can avoid the need for a guardian altogether.

If the individual is *no longer able to understand and execute a legal document*, consider having a trusted relative or friend apply to serve as the representative payee to manage the Social Security check and pay bills.

Look forward to your phone calls with fast, accurate captions on a large screen so you know you're catching every word.

CaptionCall is a service for people with hearing loss who need captions to use the phone.

Call (833) 691-1600
to get started or scan to request CaptionCall

CaptionCall and CaptionCall Mobile are available in the United States only. FEDERAL LAW PROHIBITS ANYONE BUT REGISTERED USERS WITH HEARING LOSS FROM USING INTERNET PROTOCOL (IP) CAPTIONED TELEPHONES WITH THE CAPTIONS TURNED ON. IP captioned telephone service may use a live operator. The operator generates captions of what the other party to the call says. These captions are then sent to your phone. There is a cost for each minute of captions generated, paid from a federally administered fund. No costs are passed along to individuals who qualify for the service. The CaptionCall phone and CaptionCall Mobile app remain the property of Sorenson in order to provide ongoing support, service, and upgrade. Legal notices: sorenson.com/legal.

Have confidence in every conversation.

Do you find it difficult to use a standard phone? Do people ask you to repeat yourself during telephone conversations? Do you miss important calls because you can't hear the phone ring?

The **Maryland Accessible Telecommunications (MAT)** program is here to help by giving Maryland residents the opportunity to apply for State-provided telecommunications equipment to independently make and receive calls. Once you qualify, a skilled evaluator meets with you to determine the best device to support your day-to-day communications. The **MAT** program has a variety of equipment solutions to support clearer communication, including:

- Amplified phones
- Tablets
- Ring signalers
- Phones with large and/or high contrast buttons
- Captioned Telephones
- And more

HOME HEALTH SERVICES

The following agencies provide services such as nursing, medical, social services, physical therapy, occupational therapy and home health services. Each licensing category has different parameters. Usually the client must pay for aide services; Medicare and other insurance will pay for aides only in limited situations. Some agencies employ staff to provide direct services while other agencies act as a registry, referring care providers to the client. For questions regarding these agencies, call the Office of Health Care Quality (OHCQ) at 410-402-8015.

When bringing a care provider into your home:

- Ask for the payment structure in writing, including whether payment is made to the agency or the care provider. You may be responsible for paying Social Security, IRS withholding taxes, insurance, etc., if you pay the individual directly.
- Request proof that the aide is either covered by Workers Compensation or that the aide is self-insured.
- Confirm the agency is licensed by OHCQ to specifically perform the services that you request including medication management. The health care workers should be properly trained for the services provided.
- Confirm that a background check has been done on the care provider.
- Request the license or certification of any care provider coming into your home.
- Confirm the agency has Dishonesty Bonding for the care provider or check to see whether your homeowner's insurance will cover any loss that may occur.

(HH) HOME HEALTH AGENCY: agency accepts patients for skilled care upon a signed order of a physician. Agencies are approved to accept Medicare payment. Can provide many types of services, including physical and occupational therapy.

(RS) RESIDENTIAL SERVICE AGENCY: agency may have employees to provide services in the home or may contract with health care providers that a client can select.

(NR) NURSING REFERRAL SERVICE AGENCY: agency refers care providers to clients at the family's request to provide services in the home. Care providers are not employed by the agency.

This list from OHCQ is current as of September 2024.

*"I wish I had known
about Gilchrist earlier."*

A call to Gilchrist means more hugs, more laughter and more kisses. If you or a loved one are struggling with a serious illness, Gilchrist can help. We have options for every stage of serious illness—from elder medical care and counseling to hospice and the end-of-life-services we're known for.

With Gilchrist, you have the freedom to choose the care you want, where you want it—including in your own home.

Starting services earlier allows time to manage symptoms, educate the family about the course of illness, help them with decision-making and planning, and provides the chance to address grief.

Call Gilchrist today, so you can spend more time doing the things you love with the people that matter most.

The sooner you call, the more we can help.

HOUSING - ASSISTED LIVING PROGRAMS

Provides housing and supportive services, supervision, personalized assistance and/or health-related services to meet the needs of residents who are unable to perform activities of daily living independently, or who need assistance. All Assisted Living Facilities (ALF) are regulated by the Maryland Department of Health, Office of Health Care Quality. They are licensed to provide a specific level of care, as follows:

*Level 1: Low Level of Care

*Level 2: Moderate Level of Care

*Level 3: High Level of Care

*Most facilities also accept residents at a level of care lower than the maximum for which they are licensed. Levels of care are determined by a functional assessment. For level of care information, please call the Office of Health Care Quality (OHCQ) at 410-402-8217.

All Maryland Assisted Living programs are required by law to include a Disclosure Statement in their marketing materials and to provide information upon request. The Disclosure Statement outlines the services and policies of the assisted living program. Each facility uses the same standardized form which allows consumers to easily compare services.

This will provide links to the list of licensed assisted facilities as well as additional information.

ASSISTED LIVING: 1-4 RESIDENTS

For a list of homes for 1 - 4 residents in Baltimore County, call the Maryland Department of Health, Office of Health Care Quality at 410-402-8217, or visit their website at www.health.maryland.gov/ohcq/pages/home.aspx
Click on **Programs**
then **Licensee Directories**.
Please refer to Baltimore City's listing in the directory which provides 1-4 resident facilities on page 76.

HOUSING - ASSISTED LIVING: 5-15 RESIDENTS

Live-in residents must be age 18 or older, requiring a level of care for which an Assisted Living is licensed. The Maryland Department of Health, Office of Health Care Quality surveys homes to ensure compliance with the Code of Maryland regulations for Assisted Living programs. In addition, the Baltimore County Health Department provides Environmental Surveys for county locations only. Senior Assisted Living subsidy (indicated by *) and Medicaid Home and Community Based Services Programs payment may be available, pending grant

funds. This OHCQ list is effective as of September 2024. For updates, please visit: www.health.maryland.gov/ohcq/pages/home.aspx

Plans can be a Health Maintenance Organization (HMO), Preferred Provider Organization (PPO) and Special Needs Plans (SNPs) or a Medicare Savings Account (MSA). NURSING HOMES

See also: Medicaid Home and Community Based Programs.

Nursing homes or long term care facilities provide services for individuals who need nursing care regularly, but do not need to be hospitalized. Facilities are regulated by state and local boards of health. Many nursing care facilities offer respite care, rehabilitation and other services of short duration. Always inquire about payment options.

Selecting a nursing home is an individual and personal decision. Preferences should be taken into consideration when searching for a nursing home. To make a well-informed selection, it is recommended that you make multiple visits to determine whether a facility meets the specific needs of you or your loved one. Ask detailed questions and visit several facilities. For information about selecting a nursing home, please visit www.baltimorecountymd.gov/departments/aging/housing/nursing-homes. This list from OHCQ is current as of September 2024. For updates, please visit www.health.maryland.gov/ohcq/pages/home.aspx

BALTIMORE CITY

Healthy and Active Aging is the theme of Baltimore City's thirteen (13) senior centers. Eight (8) of the thirteen are operated by Baltimore City. Centers are strategically located throughout the city offering a range of services, programs and activities that help meet the social, physical and intellectual needs of older adults.

Each center provides opportunities for adults, age 55 and older to engage in activities that are stimulating, enhancing and culturally diverse. Participants can choose from an array of choices and options that foster skill development, lifelong learning, art creativity, and cultural exchange. In addition, centers provide nutritional health, education, screening and a safe, embracing environment for socialization within the community, and also opportunities for volunteerism.

Baltimore City welcomes you to connect with any one of the thirteen (13) centers and find what interests you to maintain a healthy and active aging lifestyle.
