Newburgh Services

Our mission is to mobilize and coordinate public and private resources to address the basic needs of low-income people and assist them in attaining the skills, knowledge, motivation and opportunities needed to become economically self-sufficient.

Orange County Reentry Program

Services to facilitate and support the needs of individuals and their families during the transition from incarceration to successful community citizenship.

***"Helping People.
Changing Lives."***

About Us

Since 2008, we have been providing services to facilitate and support the needs of men and women transitioning from incarceration to successful community citizenship.

Staff strive to make a positive community connection for individuals during this time of adjustment and development. We're located in the heart of Newburgh's downtown area for convenient access and proximity to public transportation, as well as to nearby county and community agencies.

Reentry Task Forces

In November 2005, the Division of Criminal Justice Services (DCJS) developed county reentry task forces. The projects were intended to reduce recidivism by connecting high-risk participants with community support during their transition from incarceration to living in the community.

Since 2007, RECAP has co-chaired the Orange County Reentry Task Force where we help participants make positive and effective connections.

Want to learn more about the task force model and initiatives? Visit the New York State Division of Criminal Justice Services online.
