This program provides free assistance to adults in 32 counties, including Columbus who are 18 years and over with a mental illness or intellectual/developmental disability diagnosis (accepted diagnoses also include depression, anxiety, and PTSD) who have been affected by incarceration. They assist clients with connecting to shelter, finding employment, job coaching, connecting to substance abuse treatment, support, counseling, and give referrals to help with navigating income reporting to social security for the purposes of maintaining good standing with SSI and SSDI benefits (if the client is currently receiving such benefits). Job coaches work to remove barriers to

employment stability such as transportation, and housing by collaborating with local agencies. However, transportation is not directly provided to and from work.

Applicants or those wanting to refer an individual to services may contact Katherine Andrews or the main office or go online to briggsassociates.org to submit a referral request. In order to receive services, individuals must:

- have a copy of the mental health or intellectual disability diagnosis
- have a state ID or driver's license, and a social security card
- be willing to work at least 20 or more hours per week (they will assist in securing employment that also will work with people with physical disabilities or health limitations)
